SALMON FOR ADULT ANIMALS

**HYPOALLERGENIC, NATURAL FOOD
FOR ALL BREEDS**

Why salmon?

Salmon is especially rich in omega-3 fatty acids (that reduce cholesterol levels) and in digestible protein. It also contains magnesium, potassium, zinc, vitamin A, B-complex vitamins and vitamin D and it is noteworthy for its high digestibility (94%) and as an important source of calcium. It has beneficial effects on the skin and considerably reduces the possibility of food allergies.
